

Project Initialization and Planning Phase

Date	7 July 2026
Team ID	
Project Name	EduGenie Google Gemini Powered Learning Assistant
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student or self-learner studying complex academic subjects	Understand difficult topics deeply and get instant answers to my specific learning questions.	I get lost in pages of search engine links instead of getting clear, direct text breakdowns.	Static textbook materials do not offer interactive, conversational, or simplified explanations in real time.	Overwhelmed and frustrated by information overload when studying alone.
PS-2	Students preparing for exams	Test my knowledge using targeted, topic-specific	Finding high-quality, relevant practice	Standard online quiz platforms are generic and	Anxious and uncertain about my actual readiness and mastery over the topic.

		quizzes to evaluate my actual understanding.	questions for specific sub-topics takes too much time.	not tailored to the exact topic I am studying at that moment.	
PS-3	self-learner exploring a brand-new technical subject or skill	Follow a structured learning path that clearly guides me from beginner to advanced topics.	struggle to map out a clear, step-by-step progression and do not know what resources to trust.	Most online guides offer disjointed, random tutorials without unified roadmap milestones or progression guidance.	Disoriented and demotivated, causing me to abandon the learning track early.
