

No. of Functional Features Included in the Solution

Date	7 July 2026
Team ID	XXXXXX
Project Name	EduGenie Google Gemini Powered Learning Assistant
Maximum Marks	5 Marks

Functional Features Overview:

This document lists all the functional features included in the project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

S.No	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution
1	User Registration & Auth	Enables students and educators to sign up and securely log in to access personalized data.	auth_router.py	Done	Medium
2	Intelligent Q&A Engine	Instantly answers academic questions (e.g., about oceans) using Gemini 1.5 Pro.	qa_service.py	Done	High
3	Concept Explanations	Breaks down complex topics (e.g., Pythagoras Theorem) into simpler, multi-tier terms.	explain_router.py	Done	High
4	AI Quiz Generation	Dynamically generates topic-specific multiple-choice question tests for user self-evaluation.	quiz_generator.py	Done	High
5	Text Summarization	Processes and condenses long study reference materials into a clean, bulleted offline format.	summarizer.py	Done	Medium
6	Learning Path Creator	Formulates structured roadmap tracks (Beginner to Advanced) for technical subjects like SQL.	roadmap_service.py	Done	High
7	Responsive Web UI	Provides an interactive dashboard with clear entry forms, task selection drops, and clean layouts.	HTML / CSS Assets	Done	Medium
8	Automated Metrics View	Tracks past historical evaluation scores and progress milestones over user training sessions.	analytics.py	Done	Low

Feature Summary:

Metric	Count / Value
--------	---------------

Total Features Planned	8
Total Features Implemented	7
Core / Must-Have Features	6

Additional / Nice-to-Have Features	2
Features Tested & Verified	7

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	1	Responsive educational dashboards with query inputs, task selection dropdowns, and structured results display panels using pure HTML and CSS layouts
2	Backend / Logic	3	Core text parsing mechanics, local text summarization pipelines using LaMini-Flan-T5, and custom regular expression response cleaning frameworks.
3	Database / Storage	1	Secure relational mapping engine storing student data records, structural text history, and quiz evaluation scores via local SQLite/PostgreSQL schemas.
4	API / Integration	2	Google Gemini 1.5 Pro cloud SDK connection utilities, asynchronous routing handles, and text generation endpoint scripts
5	Security / Authentication	1	Standard secure session management, token handling, parameter data validation patterns, and encrypted user entry checking logic.
